Dear ever loved and kind ones:—

As I feel kind of lonesome and home

sick, and as today is the day of the

Christmas and, my dear loved par-

ents, as this is the first Christmas I am

away from home, yes, away from ones

so true and kind. Oh, could I but spend

a few minutes with you all these

days, for that would seem long enough,

just so I could see your kind faces once

again. Well, my dear ones, will here

write a few lines of our Xmas. Last

night we played a concert at the Y. M.

a Xmas tree. It is certainly a nice

and good family that invited me.

There Santa brought me something,

also a large sack of fine cakes, the

kind that mother used to make, and

some apples, and all kind of goodies.

This morning I went to two masses,

and wish you all could have heard the

nice singing they have in the church

here. After church I took dinner

with the same family again. And it

was something I used to get at home.

We had dinner at our army kitchen at

3 o'clock and it also was good: coffee,

biscuits, steak, butter, potatoes and

candies. I certainly did enjoy it, but

dear, you can guess about how I

missed you all.

Dear ones, I had my picture taken

and so I am enclosing a few. You can

give one to brother Ed's family and

one to brother Henry's family. And

I am going to send sister Annie and

Paul one.

Dear ones, I guess tonight we will

play a concert at the Y. M. C. A. again,

and I guess that will wind up this

great day.

The Boys.

A new organization for the benefit of a group of boys of Hondo has organized under the supervision of Mr. Howell. The members of the new institution are all enthusiastic and promising results will undoubtedly be the outcome.

"The Boys" was presented and agreed upon as the name of the club. "The Boys" was taken from the title of one of the masterpieces of Oliver Wendell Holmes, and its significance can readily be seen by the reading of that poem, which was written for the creation of the thirtieth anniversary of the re-union of the famous Harvard class of 1829.

"The Boys" have as their home the little bungalow parsonage of the Baptist Church, which they have beautified within, and which, it seems, was built for no other purpose but for what it is used now. Literary and athletic development are the principle issues of the club, but music, games and reading are likewise attractive, interesting, and attainable to the members.

Organization of Canning Clubs.

Mrs. Kent of the Agricultural Department of Texas will be at the below named places for the purpose of organizing the ladies into Canning Clubs. The Federal Food Administration still requests us to "Save", and has asked the Agricultural Dept. to organize the clubs and teach them how to save the fruits and vegetables by canning.

Mrs. C. B. Noonan, after a week's visit to her son, Judge R. J. Noonan, and family, returned to her home in San Antonio the first of the week.

Our Soldier Boys.

It has been suggested to us that we print a map of Medina county, surrounded by the names of the boys who donned the uniform to defend the country in the recent crisis we have passed through. The suggestion has appealed very favorably to us, and if it can be accomplished we will make the publication as soon as a complete list of all the names of the boys can be obtained.

It should be borne in mind that all the records of the county exemption board will be placed in the archives of the War Department at Washington and will be inaccessible to the people at large. We are not certain but what this has already been done. Then, too, the records of the board would show the names of those only who were induced into the service through the selective draft system. The list of registrants on registration days could not be relied on to get a correct list, as many of those registering were rejected for various reasons. Then, too, a great number volunteered into the service and their names do not appear on any local records.

If the list does not contain the name of every soldier boy in the county then it is of no value. The only way we can see to get a complete list is for some responsible person in each community to agree to furnish the names of the boys going from their neighborhood and into what branch of the service they entered. If any one has a simpler way to get a complete list of the names we would be glad to hear their suggestion.

The Anvil Herald has a very good map of the county and will undertake to publish the names of the boys if we can get a complete list, although the publication may run through a couple of issues. There is no disputing the value of the publication and the papers would prove valuable keepsakes. This office can make no definite promise in the matter. All it can promise is to do its part should the responsible people of each neighborhood care to cooperate in the matter of compiling the names.

If any one has any suggestions to make we would be glad to hear from them.

Overton Schmidt, among the first to enlist in the navy following the declaration of war, sailed into Hondo Sunday night with an honorable discharge from Uncle Sam's sea forces in his pocket. He has seen a great deal of hard service, has crossed the Atlantic three times, nevertheless he looks fine and fit, showing that the jolly life of a Jack tar agrees with him. Like all other American boys, he was enthusiastic for the service as long as the prospect for a fight was good, but like all the other boys, when that possibility passed he was anxious to return to civil life, hence he is glad to be home. When he came through San Antonio he accidentally met his brother, Oscar, who he thought was still in France. Oscar has about recovered from his wound received in battle, and is expecting his discharge from the hospital and army and he, too, will again take up civil life in Medina county, after doing his full duty to his country.

Loe Weynand was here from D'Hanis last Saturday and was a visitor at this office. As a result of his visit the Anvil Herald hopes to be a welcome visitor to his hospitable home for another twelve months.

P. S. Ward was up from Yancey last Saturday and called at the Anvil Herald office. He is one dry-land Medina county farmer that is not complaining of hard times. He gathered twenty bales of cotton, one thousand bushels of corn and several thousand pounds of milo maize off his farm. We believe this was the best dry land crop in the county last year. If any one can beat it we would like to hear from them.

A COMPANY to handle OVERLAND and WILLIS-KNIGHT automobiles is desired in every community or trading center where dealerships have not already been secured. File your application with the WINERICH MOTOR SALES COMPANY, distributors, San Antonio, Texas.

We haven't had but 1.28 inches of rain this week, 1.06 inches Sunday night and .22 of an inch Wednesday. The continued wet weather is delaying corn planting somewhat but as there is plenty of moisture in the ground no one is worrying. Then, too, it has been rather cool for planting corn, particularly when the price of seed corn is considered. The oats crop is causing farmers in some neighborhoods to worry as they are getting too rank for this time of year and they cannot get sufficient cattle to graze them down. The country in its whole history never looked more encouraging, and our people are full of hope. There has been a considerable revival in business, and after some two years depression there is every evidence that old Medina county is again coming into its own. Meanwhile, let it rain. P. S.—Since the above was put in type it has started raining again. Well, eer, eer—let it rain.

Armenian Relief Fund.

There has been a very generous response to the appeal for the relief of suffering Armenians, Syrians, Greeks and Persians. A number of school districts have raised more than their quota, among these being Devine, Hondo, Castroville, Leinweber, Maverick, Burrell, Yellow Banks, Kincheloe, Langfeld and Vandenberg. Medina County's quota is \$800. So far we have collected but \$663.82.

A number of school districts have made no report. In all these districts where the canvass is incomplete or has not yet begun, the time for closing the drive has been extended to February 28th. Delinquent districts are urged to get busy at once. The teachers can help materially by explaining the purposes of this campaign to the children and urging the people through them to contribute. In Hondo most of the soliciting was done by a committee of high-school girls, and the children themselves contributed a considerable percentage of the amount collected.

The need of these suffering people is great. They need food, shelter, clothing, seeds for planting, and farming implements. The purpose of this campaign is to provide for all their necessities and to assist them in rehabilitating their lands so they can again become self-sustaining.

Albert Mumme was in from the farm Tuesday and dropped into this office. He is decidedly cheerful over agricultural prospects, the only thing worrying him just now is the tendency of his oats to "run up" despite the pasturing of his stock. He thinks it quite possible that it will be necessary for farmers who are short of cattle to use their mowing machine to control the growth of their oats crops.

GOES 30 MILES TO GET MORE TANLAC.

Throws Walking Canes Away After Tanlac Relieved His Rheumatism, He Says.—Has Gained 15 Pounds.

"When I first started on Tanlac I was so crippled up with rheumatism that I had to use two walking sticks in order to get about at all, but after taking five bottles, every pain is gone and I have gained fifteen pounds besides," said William Choate, 34 West Riverside Avenue, Spokane, Washington.

"Rheumatism was only one of the many troubles that Tanlac relieved me of," he continued. "I had suffered with a bad stomach for twelve years. Gas would form after I had eaten and almost cut off my breath. I had a terrible hurting in the pit of my stomach. I had awful pains in the small of my back and constant headaches. Then rheumatism set in and I was laid up flat of my back for several weeks, hardly able to move.

"Well, to make a long story short, Tanlac just simply did wonders for me. Before I finished my second bottle I had thrown away my canes and could walk as well as any one. All the sourness and gas has left my stomach. I can eat just anything I want and enjoy it and I haven't a touch of the rheumatism left. I had to drive thirty miles to get one bottle of Tanlac, our local druggist being out, but I would do so again under the same circumstances.

Tanlac is sold in Hondo by W. H. Windrow.

Tender Thoughts in Will.

Sometimes there are found such tender touches as these in the will of a late town clerk of Monmouth, who died in 1915, aged seventy-two. He left to the Monmouth General Hospital and dispensary, for the children's ward, in memory of his darling child Lizzie, \$500 and a framed portrait of the child, and desired the authorities to place on her grave a wreath of flowers each Palm Sunday and a wreath of holly each Christmas day.

Lute Out of Existence.

The lute has vanished. It was one of the oldest of instruments, and had a beautiful vibrant tone somewhat like that of the harp. But its size and complexity were against it. It had a long tail and many strings, and while its size increased its power and range, it also increased its weight and made it cumbersome. The minstrel of today plays on the mandolin, the guitar or the banjo—and the lute is forgot.

Being Ahead of the Times.

The world calls every man that is ahead of his age a crank. There is no disgrace in it. It may be a little hard not to be understood and appreciated when you know you have what the world needs, notes an exchange. But remember, that's the way with the world. It sometimes takes years, and even centuries for people to appreciate what's beyond their experience.

"OLD TIME" BICYCLE HAS AGAIN BECOME POPULAR

Tours, France.—"Every one here rides a bike, including the secretaries of the Young Women's Christian Association," writes Miss Esther Sieght, secretary of the Hostess House for American Women in Tours, Miss Sleight, who attended Syracuse University, and was assisting in the war work at Charleston, S. C., at the time of her appointment to work in France, adds that Mrs. James S. Cushman, chairman of the War Work Council, presented each of the Hostess houses with a good old reliable American-made "bike."

"Automobiles are needed for the army. Besides, gasoline, or 'essence' as we now call it, is expensive. We are always running short on it, just as we do our sugar supply. Consequently we depend on other sources of power, and habitually cycle from our hostess houses to the foyers, social rooms at the factories, and to the recreation park on the Loire."

When the bowels become irregular you are uncomfortable and the longer this condition exists the worse you feel. You can get rid of this misery quickly by using HERBINE. Take a dose on going to bed and see how fine you feel next day. Sold by W. H. Windrow.

BLUE TRIANGLE WORKERS ARE BUSY IN WAR ZONE

Tours, France.—"Say, are you folks over here under the army or are you on your own?" popped in vigorously American, rather startled a secretary of the Young Women's Christian Association in this city whose ears have ached for the sound of a voice from home.

"He was a private," explained the secretary, "and he was in deadly earnest. I did my best to tell him of our work here for the nurses, the women workers and the munition makers. Meanwhile, I saw he was studying me from head to foot and his eyes fastened themselves on the Blue Triangle on my arm.

"Then in true doughboy style he sententiously added, 'Well, when I see that Y. W. C. A. on your arm, I say to myself, 'The Y. W. C. A. ain't over here for nothing'."

A scald, burn, or severe cut heals slowly if neglected. The family that keeps a bottle of BALLARD'S SNOW LINIMENT on hand is always prepared for such accidents. Sold by W. H. Windrow.

Are Parrots Left-Handed?

It has been noticed that parrots seize objects with the left claw by preference or exclusively, and they make a readier use of the left claw for climbing than the right. Are they "left-handed?"—Exchange.

Gas in the stomach or bowels is a disagreeable symptom of a torpid liver. To get rid of it quickly take HERBINE. It is a marvelous liver stimulant and bowel purifier. Sold by W. H. Windrow.

Curious.

Just happened to think—funny, but true—that every man who ever made a pioneer of himself was considered looney! Can you locate a single exception? Look 'em over.—Richmond Times-Dispatch.

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

Getting Rid of Colds.

The easiest and quickest way to get rid of a cold is to take Chamberlain's Cough Remedy. This preparation has been in use for many years and its value fully proven. No matter what remedy you use, however, care must be taken not to contract a second cold before you have recovered from the first one, and there is serious danger of this. A man of middle age or older should go to bed and stay in bed until fully recovered. It is better to stay in bed three days at the start than three weeks later on.

LaCoste Ledger Laconics.

Messrs. John Moehring and Haegelin Bros. of Hondo were over here at LaCoste to ship a couple of loads of feed that they had raised, and they sure had a tough time of hauling it to the depot from the farms, as the road is nothing but mud holes and ruts. Mr. A. L. Haegelin would like to suggest to the LaCoste people that they could save money, teams and labor by getting together and forming a road club, and if every farmer would put in two days free with his team and only haul one load of gravel per day, it would bring this irrigation country in much better shape. That is going to be the custom in all parts of the country and not depend upon the county commissioners for they can't do it all without a special tax.

Mr. and Mrs. Joe Gross of D'Hanis were here on a visit to relatives Saturday.

Reason Enthroned.

Because meats are so tasty they are consumed in great excess. This leads to stomach troubles, biliousness and constipation. Revise your diet, let reason and not a pampered appetite control, then take a few doses of Chamberlain's Tablets, and you will soon be well again. Try it.

What Doctor Pierce Has Done For Humanity!

BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloe, root of jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constipated. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

Champ Clark on Centenary.

Recently the Honorable Champ Clark made a statement that shows the breadth of thought of the popular Speaker of the House of Representatives, the statement being relative to the Centenary of Missions of the Methodist Episcopal Church, South, the movement to celebrate the year 1919 as the anniversary of one hundred years of missionary endeavor of that denomination. In commenting upon the movement Speaker Clark, who himself is a "Campbellite", said: "Of course you know I am not a Methodist; I am a Campbellite, but nevertheless and notwithstanding, the Methodists are a great people and have done a great work in the world, and I am very fond of them. I think it is a fine thing to celebrate the Missionary Centenary of the Methodist Episcopal Church, South. This country is so young we do not have very many anniversary celebrations any way you fix it, and the Methodist circuit rider was one of the pioneer civilizers of the Western world. He was always on the frontier and preaching the Gospel in out-of-the-way places, and not only building up the Church but building up the institutions for which we all stand; consequently I am heartily in favor of your movement."

Speaker Clark's tribute to the circuit rider is particularly appropriate, since the raising of the salaries of these hard-working preachers is one of the special benefits to come out of the financial campaign of the church which will be held the latter part of April.

Dreadful Cough Cured.

A severe cold is often followed by a rough cough for which Chamberlain's Cough Remedy has proven especially valuable. Mrs. F. W. Olsen, Marysville, Mo., writes: "About 2 years ago my little boy, Jean, caught a severe cold and coughed dreadfully for days. I tried a number of cough medicines but nothing did him any good until I gave him Chamberlain's Cough Remedy. It relieved his cough right away and before he had finished taking one bottle he was cured. I think it is just fine for children."

SPIRIT OF NEIGHBORLINESS

Says Mr. Davis is One of the Strongest Factors in Assuring Contentment and Satisfaction in the New Home.

Among yesterday's visitors to McAllen was Fletcher Davis, Field Agent of the State Department of Agriculture. Mr. Davis' sphere of work is rural organization and he discussed Farmers' Institute affairs in an informal way with a number of farmers who met him at the Commercial Club rooms in the afternoon.

"It is to be regretted," said Mr. Davis to a Sun representative, "that interest in the local institute has been permitted to lag at this time. With the rapid influx of new people, the social features of the institute can be made of incalculable value to the people in offering to the newcomer an opportunity to meet and become better acquainted with his neighbors. A wholesome spirit of neighborliness is one of the strongest features in assuring contentment and satisfaction in the new home. Then the institute opens the way for people unfamiliar with conditions and approved methods to learn of the experience of others, thereby avoiding expensive failures and striking the shortest cuts to successful production and marketing of crops. And with a well developed community spirit many ways of co-operative endeavor can be worked out and community development will be more rapid and along lines of permanency."

People with the future welfare of the Magic Valley at heart should look well to the organization of rural people along safe and sane lines, thinks Mr. Davis, and he says the State Department of Agriculture is ready and anxious to contribute whatever lies within its power to further these desired ends.

Mr. Davis is scheduled to meet the farmers at Sam Fordyce at three o'clock p. m. today. Mission at the same hour Thursday, at Pharr Friday and at Mercedes Saturday. He will be glad to have all who are interested meet him at these appointments and bring others with them.

Donna, Texas, Jan. 20.—A community spirit of co-operation; honest, capable leadership, able and willing to make the necessary sacrifices for the public good; a definite, enduring objective to strive for; and such social features as are necessary to meet the community's needs for innocent diversion are the four essentials for permanency in farmers' organizations urged by Fletcher Davis, institute organizer for the State Department of Agriculture, in a lecture on rural organization before the Donna Farmers and Water Users' Association here this afternoon. Mr. Davis spoke for about an hour and discussed the social, educational and business phases of rural organization.

President M. N. Baker of the Association presided over the meeting and about seventy-five members and visitors, including the agricultural class of the Donna High School and their teacher, were present.

After the lecture the Association took up several local matters for consideration and, on motion of one of the members, the chairman appointed a committee to look into and further the matter of securing a State experiment station for the lower Rio Grande Valley.—McAllen Sun, January 22nd.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart pint of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

Relieved of Catarrh Due to La Grippe, Thanks to PERUNA

Mrs. Laura Berberick, 69 years old, of 1205 Willow Ave., Hoboken, N. J., writes:

"Four years ago I had a severe attack of La Grippe. After my sickness I was troubled with hoarseness and sime in the head and throat, and was told I had Catarrh. I took some medicine but without much benefit. Every winter for four years, I have had La Grippe (last winter three times). The Catarrh grew worse. I could not lie down or sleep at night. Was always troubled with sime, pain in my back and a terrible headache every morning, when I woke up, and had no blood. I got a Peruna calendar in Danish, my native language, and I read it through, every testimony, and then I bought a bottle of Peruna. To-day I can truthfully testify that Peruna has been a great benefit to me. It has given me blood and strength. I can lie down and sleep without being troubled. I have no pain, headache, or noise in my head. I have gained in weight three pounds, which I think is good for my age. I will be sixty-nine years old next summer. I have used Peruna since I started in February, and I use it yet. I feel cheerful and happy, thanks to Peruna. It will always be in my home and I recommend it to those who need it."

FARMING SCHOOL FOR RIO VALLEY SUGGESTED

San Benito, Texas, Jan. 21.—Fletcher Davis, rural organizer for the State Department of Agriculture, told an audience of farmers here that a new and developing section like this valley needs a farmers' institute to serve as a social medium through which people can become acquainted, to serve as a great free school wherein they can study improved methods of production, distribution and marketing, and where in they can work out co-operative plans for mutual help and community upbuilding. After the lecture a preliminary organization of a permanent institute was effected.

The officers elected were as follows:

L. C. Sparks, president; J. T. Kuhn, vice president, and W. Y. Dawson, secretary and business agent. About twenty enrolled as members.—Houston Chronicle, January 22.

PIGS IN POKES

It is an American characteristic to shout when you win but never cheep when you lose. More's the pity. And shrewd stock swindlers have made the most of it. If only ten per cent of the victims who have traded their Liberty Bonds for worthless stocks in wild cat companies alone were to tell the country of their losses it would discourage this sort of bartering. But they will never do it. The man who is stung the hardest is the least likely to admit it. He simply grins and bears it.

Meantime thousands of Liberty Bond owners are considering surrendering their 3 1/2, 4 and 4 1/4 certainties for neatly printed and highly illuminated certificates that are 90 per cent pipe dreams.

Nine times out of ten these gulls are the small investors, the fellows who can the least afford to lose.

There is some excuse for the man who lives in a developing oil field and sees and knows what is being done investing in a promoting company there.

But there is no apology to be made for the man who invests at long range. Who never sees what he is dumping his money into. Who takes only a salesman's word. Who, above all, trades in a Liberty Bond for a stock certificate.

Keep your bonds. They're an investment, not a speculation.

To amend Section 50, Article 3, of the Constitution of the State of Texas, to provide that the Legislature shall have power to give or lend, or authorize the giving or lending, of the credit of the State for the purpose of assisting citizens who are heads of families to acquire or improve their homes; authorizing the State to acquire, improve, sell or lease real estate or assist such citizens to acquire or improve their homes upon terms and conditions prescribed by the Legislature; authorizing the Legislature to create such agencies as may be necessary to carry out the purposes of this section; providing that obligations created under this section shall never be taxed; and providing that the Legislature shall have authority to provide a method of securing any deferred payments for lands purchased hereunder, and that such obligations shall be secured in addition to the usual liens by an annual assessment collected as a tax against the land; and providing that the Legislature shall have no power to relieve any person from any obligation entered into under this provision or any statute enacted thereunder; and providing for the classification of lands acquired under this Act, and limiting acreage sold to any one person where lands are classed as agricultural.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 50, of Article 3, of the Constitution of the State of Texas, be so amended that the same shall read and hereafter be as follows:

Sec. 50. The Legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the State in aid of or to any person, association, or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individuals, association of individuals, municipal or other corporation, whatsoever, except that the Legislature shall have the power to give or to lend, or to authorize the giving or lending, of the credit of the State for the purpose of assisting native born or naturalized citizens who are heads of families and who will become in good faith actual occupants to acquire or improve their homes; and for this purpose the State is authorized to acquire, improve, sell or lease real estate or assist such citizens to acquire or improve their homes upon such terms and conditions and in such manner and subject to such limitations as the Legislature may from time to time prescribe. The Legislature shall have authority to create by law such agencies as may be deemed necessary to effect the purposes of the Act. Obligations created under this section shall never be taxed, and the Legislature shall have authority to provide a method of securing deferred payments for lands purchased hereunder, and in addition to the usual liens may secure the same by an annual assessment collected as a tax against the land; provided, however, the Legislature shall have no power to relieve any person from any obligation entered into with the State under this provision or any statute enacted hereunder. The terms of this Act shall not apply, or be extended to any person who is not a bona fide resident citizen of the State of Texas and who has not been such citizen at least two years prior to the extension of such aid, nor shall the terms of this Act ever be applied to any lands outside of the State of Texas.
